

# FoxBot Autonomous Forklift

SEAMLESSLY AUTOMATE INBOUND AND OUTBOUND OPERATIONS

**24 X 7 X 365**

“ I now **monitor pallets for accuracy** and damage and have more energy at the end of the shift

- Warehouse Associate

“ New roles require **less manual labor**, offer more mental stimulation, and potential longevity”

- Warehouse Associate

“ Between the **two robots**, we are doing **90%** of our inbounds daily”

- 3PL Manager

“ Robots are here **everyday** - makes my job easier to plan from a labor perspective”

- Supply Chain Manager

“ We realized a **30% reduction in damaged pallets claims**”

- Supply Chain Manager

# The Autonomous Advantage

The FoxBot revolutionizes trailer loading and unloading, delivering unparalleled efficiency and safety. This cutting-edge technology ensures seamless, swift, and accurate handling of goods, significantly reducing labor costs and enhancing overall productivity in your logistics operations.

## Made for Safety and Easy to Integrate

The FoxBot is equipped with natural feature detection for precise, flexible navigation, and 360° safety protection. With no need for WMS integration or warehouse modification, the Foxbot sets up in just an hour, offering a reliable and secure solution that's ready when you are.

### TURN YOUR LABOR CHALLENGES INTO A COMPETITIVE ADVANTAGE WITH THE FOXBOT

#### LOWER LABOR COSTS

Significantly reduce your labor expenses while introducing a new level of reliability.

#### REDUCE WORKPLACE ACCIDENTS

Significantly reduce your labor expenses while introducing a new level of reliability.

#### MAXIMIZE UP-TIME

Foxbot delivers steady performance and dependable up-time, keeping your workflow uninterrupted and productive.

#### SCALE ON DEMAND

Adapt swiftly to changing business needs by adding or reassigning Foxbots between facilities.

#### MINIMIZE PRODUCT DAMAGE

Foxbots are expertly designed to handle goods with utmost precision, significantly reducing the risk of damage during operations.

#### MULTIPLY PRODUCTIVITY

Operators can efficiently oversee multiple FoxBots, significantly reducing labor dependency and effortlessly scaling your operations.

#### BRIDGE LABOR GAPS

Fill critical gaps, ensuring consistent productivity even during labor shortages or peak seasons.

#### IMPROVE EMPLOYEE RETENTION

Automate repetitive tasks and reduce manual labor, while increasing job satisfaction and workplace morale.

We offer live demos, proof of concept pilot programs, and both lease (Robots as a Service) and CapEx pricing models. Contact [sales@foxbots.com](mailto:sales@foxbots.com) to get started today.
